**SCHEDULE OF TASKS (e.g. due dates for outline, rough draft, literature review, etc.)**

The purpose of this project is to create a high quality written document - based on literature research and experimental results. Creating quality written documents takes time. Therefore, we ask that the student-mentor team devise a plan that sets deadlines for submission of appropriate segments by the student (e.g. methods section, results sections, figures) as deemed appropriate for the project. Similar deadlines for return of critical review should be set for the faculty mentor. Consequences for failure to comply with the established deadline should be clearly defined. **Please note that you are required to present your thesis/capstone at the CBC annual poster fair, usually held in April.**

The University of Arizona would like to ensure that research experiences for undergraduates continue to be of high quality, reflecting the true nature of the work agreed upon. In order to define the experience for both the student and the project advisor, detailed information regarding the writing project is necessary. This Approval Form should be **as specific as possible** so that both the research mentor and student are aware of the expectations for the project, as well as what criteria will be used to award a grade. The full listing of University of Arizona Policies for Independent Study is available at <http://catalog.arizona.edu/> these apply to the senior thesis/capstone project.

CHEM/BIOC 498(h) is a writing course for BIOC majors. By signing this form, the thesis advisor certifies that he/she will read the prospectus and the final senior thesis and will approve both the content and the writing style
